@MassAFP

DEAR MEMBERS,

This was a challenging and pivotal year for our Family Physicians. Not only did our members play a key role in combating the COVID-19

pandemic, we also took a pause to adapt our strategic goals and realign our advocacy and educational efforts as the health crisis shined a light on various areas of health disparity and inequity.

MassAFP looks forward to continuing to advocate for a more equitable healthcare system and the future of Family Medicine into the next year.

Michele Parker, MD

MassAFP President
